- 7 Congress finds as follows:

- 1 (1) Community, migrant, public housing, and 2 homeless health centers are vital to thousands of 3 communities across the United States.
 - (2) There are more than 1,000 such health centers serving more than 16,000,000 people at more than 5,000 health delivery sites, located in all 50 States of the United States, the District of Columbia, and Puerto Rico, Guam, the Virgin Islands, and other territories of the United States.
 - (3) Health centers provide cost-effective, quality health care to poor and medically underserved people in the States, the District of Columbia, and the territories, including the working poor, the uninsured, and many high-risk and vulnerable populations, and have done so for over 40 years.
 - (4) Health centers provide care to 1 of every 8 uninsured Americans, 1 of every 4 Americans in poverty, and 1 of every 9 rural Americans.
 - (5) Health centers provide primary and preventive care services to more than 700,000 homeless persons and more than 725,000 farm workers in the United States.
 - (6) Health centers are community-oriented and patient-focused and tailor their services to fit the special needs and priorities of local communities,

- working together with schools, businesses, churches,
 community organizations, foundations, and State
 and local governments.
 - (7) Health centers are built through community initiative.
 - (8) Health centers encourage citizen participation and provide jobs for 50,000 community residents.
 - (9) Congress established the program as a unique public-private partnership, and has continued to provide direct funding to community organizations for the development and operation of health centers systems that address pressing local health needs and meet national performance standards.
 - (10) Federal grants assist participating communities in finding partners and recruiting doctors and other health professionals.
 - (11) Federal grants constitute, on average, 24 percent of the annual budget of such health centers, with the remainder provided by State and local governments, Medicare, Medicaid, private contributions, private insurance, and patient fees.
 - (12) Health centers make health care responsive and cost-effective through aggressive outreach,

1	patient education, translation, and other enabling
2	support services.

8	tive health services, including immunizations, pap
9	smears, mammograms, and HBa1c tests for diabetes
10	screenings.
11	(15) Expert studies have demonstrated the im-
12	pact that these community-owned and patient-con-
